SUMMARY

Currently Pursuing **BTech Major in Computer Sciences and Engineering** and a **Minor in Robotics** and working as a **Software Engineer-QA**. Aspiring Software and Machine Learning Developer with experience in MERN stack development, machine learning, and image processing.

SKILLS

Languages: C++, Python, Java

Technologies: Linux, MERN Stack, TypeScript, FastAPI, PostgreSQL, Redis, Docker, OpenCV, Open3D, PyTorch

Roles: Software Engineer - QA, Full Stack Developer, AI/ML Engineer.

Soft Skills: Strong Technigal Debugging, Leadership, Communication, Time Management, Teamwork.

EXPERIENCE

SWE - QA Intern — Versa Networks Pvt. Ltd.

Jun 2026-Present

Working on both UI and CLI Automation and testing software products by *Versa Networks*. Hands-on experience with advanced **Linux** commands, **Python** for automation & **Strong Debugging Skills**.

Full Stack Development Intern — Edubot Technologies Pvt. Ltd. — [Certificate](#)

Jun 2025 – Aug 2025

Hands-on experience with **MongoDB**, **Express.js**, **React**, and **Node.js** through structured training and a capstone project, building secure and modular web applications.

Machine Learning Intern & Image Processing Intern — SRM University AP

Nov 2025 – Dec 2025

Developed ML models for depth-force prediction using **UR5e**, **ZED2i**, **Open3D**, and **OpenCV** for real-time 3D pothole detection and volume estimation.

PROJECTS

ParaNode — <https://www.paranode.in/>

Engineered **ParaNode**, a high-performance mentorship platform using **React** and **TypeScript**.

Implemented secure **OTP authentication**, automated **mentor booking**, and real-time internship portals via **REST API integrations**. Deployed on **Vercel** and **Render** with a dedicated Domain name.

StockVision AI — [Code](#)

ML-powered stock monitoring and forecasting platform integrating a **React–TypeScript** frontend, **Node.js** backend, and **FastAPI** microservice using **LSTM** models, **Docker**, **PostgreSQL**, and **Redis**.

OpenBin — [Link](#)

MERN-based Wastage management system with authentication, role-based access control, and persistent storage. Developed for a Startup Company called “OpenBin Solutions”.

Personal Minor Projects:

Built several end-to-end software projects spanning machine learning, natural language processing, computer vision, and full-stack web development. Leveraged technologies including **React**, **FastAPI**, **Flask**, **Node.js**, **MongoDB**, **PostgreSQL**, **Scikit-Learn**, **PyTorch**, **OpenCV**, **FFmpeg**, and modern JavaScript to develop practical applications. Repositories: [Hotel Guest Sentiment Analyzer](#) | [Text-to-Speech & Summarizer](#) | [SubtitleStudio](#) | [Multi-User Task Management App](#) - [live](#) (each linked to its respective *GitHub* repository).

CERTIFICATIONS

Java SE-17 Developer - [Certificate](#)

Feb 2026

MongoDB Associate Developer - [Certificate](#)

Apr 2026

AI/ML Course Completion Certificate — TeachNook — [Certificate](#)

Dec 2023

Web Development Basics Completion Certificate — IBM — [Certificate](#)

Jun 2025

Developing Sites - Completion Certificate — IBM — [Certificate](#)

Jul 2025

EDUCATION

B. Tech in Computer Science Engineering, SRM University AP 2023 –

2027

GPA: 9.10 / 10.0

Class XII — BIEAP (955/1000)

2022

Class X — APSSC (600/600)

2021

Achievements

- Actively participated in Hackathons conducted in the university.
- Volunteered in CR/CS department of placement Coordination – Active participation in events.
